ACLS SQL7.8.x bug-fixes and new features:

1. Training manager:
    - Overhauled UI to separate active and inactive training certificates
    - Added new feature so admin can remove users from inactive certificate in the inactive certificate listing
2. Booking resources:
    - Overhauled the landing page to show up messages and alerts without the need of click the ballon button
3. Account manager (UNSW version):
    - Scripted the local ACLS instance account book to sync with UNSW finance accounts stored in ACLS enterprise BI service
    - Implemented ACLS enterprise BI service to integrate with UNSW finance system to fetch account data automatically.
4. Induction module:
    - Added user induction report to access the selected user induction reports
    - Added user induction report to access the selected induction process reports
5. Deakin:
    - Added new sign-out button to tracker app, v0.10.1
    - Added tracker profile setting "enable windows logoff button on tracker app login page" in resource profile editor
6. MCN:
    - Fixed FOB reminder bugs
    - Updated FOB reminder template as per MCN request
7. CMCA:
    - Re-enabled resource booking and school booking report, monthly and period
    - Added centre facility to use during next 6 month to the printed copy of reg form
8. ANFF UQ:
    - Fixed the missing supervisor name in consumable reports
9. RIMS:
    - As per trial report 24/4/2024
